Jacqueline Kareh is an engaging presenter. Visiting this pyramid complex initially as part

of her spiritual quest, she returned later as a **volunteer on the archaeological excavations**. She felt strangely 'at home' in the tunnels, touched and inspired by her time there. When Jacqueline talks of her experiences, her audience gets a sense of the place, connecting with the calming, uplifting energies of the megaliths and healing chambers. Many people report improved health and pain reduction by visiting these tunnel sites. www.piramidasunca.ba for info.
